

ADMINISTRATIVE - INTERNAL USE ONLY

STATUS OF FMP 70's
May 1970

1. DDS

- a. OF: Completed turnover projections and working on the future promotional status of its careerists. Apparently, does not plan to use the Career Board mechanism for the latter purpose.
- b. OS: Completed promotional possibilities and promotional needs. Results reviewed by Deputy Directors of OS and D/S. Discussed with ADDS.
- c. OTR: Career Board meets next week to review and discuss basic statistical material on projected turnover. Plans to prepare projected promotional possibilities and promotional needs during June.
- d. OC: Has developed and validated some of the data on personnel turnover, presented by OP. Has performed a review of desired qualification levels for GS-15 personnel and has discussed this issue with O/DDS.
- e. OL: Future promotion and retirement levels have been computed. Present planning calls for consideration of promotional needs by the immediate Office of D/L.
- f. OMS: OMS intends to prepare a narrative report reflecting separate internal career groupings (psychologists, doctors and technicians). D/MS has actively participated in a review of activities to date.

2. DDI

- a. OBG1: Material prepared in Steps 1 and 2 of the Program has been forwarded to OBG1 Admin, after review and approval by Career Board.
- b. OCI: Data prepared in Steps 1 and 2 have been submitted to DDI Admin, after Division Chiefs had made the promotion assessments called for in Step 2 of the process.
- c. DCS: Material prepared in Steps 1 and 2 is being transmitted this week to the DDI Admin. Career Board took active part in considerations.
- d. [REDACTED] Package, now in hands of DDI Admin, reflects efforts over several weeks by Career Board. It has submitted a thorough Career Service Situation Report.

STATSPEC

ADMINISTRATIVE - INTERNAL USE ONLY

ADMINISTRATIVE - INTERNAL USE ONLY

e. NPIC: First two Steps of PMP 70's have been completed and transmitted to DDI Admin. Effort accomplished through individual actions of group leaders working on promotional considerations, rather than meeting as a Career Board.

f. OER: Personnel transfers with OER/Personnel and Admin have delayed completion of Steps 1 and 2. Statistical material now being worked on by OER careerist under direction of Administrative Officer.

g. IAS: Material pertaining to Steps 1 and 2 has been forwarded to DDI Admin. Career Board acted on Step 2. We have been advised Board has decided to take a longer, harder look at promotions during next ten years than ever before, including extension of TIG factors; felt process has been a valuable tool in achieving a longer range personnel view and perspective.

h. OER: Drafted Career Service Situation Report. From outset, has displayed conscientious, intensive concern in completion of various Steps.

i. CRS: Still working on first two Steps.

3. DDS&T

a. OEL: Report transmitted within the week to DDS&T Admin. Division Heads participated actively in Program.

b. ORD: Steps 1 and 2 are completed. Top leadership of Office took active part in considerations.

c. OCS: Statistical calculations forwarded to DDS&T Admin. The Division Chiefs played active role in activity. Career Board will meet next week for a report and discussion on where they stand and what actions now should be undertaken.

d. FMSAC: Personnel Officer reports not only participation but active concern by several Division Chiefs. Statistical material has been submitted to DDS&T Admin. The various Chiefs also took an active interest over a period of many weeks, to a larger degree than heretofore. They likewise will discuss specific problems in future meetings. Personnel Officer further reported the Program at first seemed rather frightening, but there was a consensus in OCS that it had been rewarding and they look forward to doing the annual updates.

e. OSA: Has turned in its assessment of promotional opportunities and needs to DDS&T Admin. Various Chiefs made their contributions. In words of Personnel Officer, "did some thinking" about the problems involved.

f. OSP: As we had hoped would prove to be a pattern of recurring activity, OSP left administrative details to the personnel shop, and Division Chiefs contributed heavily to evaluation of individuals

and their potential. Received the comment from Support Branch that it thought the exercise was useful and Division Chiefs had received it favorably.

g. DDS&T Admin: Conversations with this Office revealed most returns are on hand, many of which have been received within last two weeks. Will be evaluated for overall significance, preliminary to developing an R Service Situation Report.

4. CS

Discussion with a representative of Service indicates it has not been able to get to the Project. He thought CS might get to it after the beginning of the next Fiscal Year.
